Association

Serbian neurocardiological Society, SNCS  
Serbian Autonomic Society - SAS

European Academy of  
Sciences and Arts

International Society for Holter and  
Noninvasive Electrocardiology

Dear colleagues,

It is our great pleasure to invite you to the Joint meeting of the 15th International Symposium on Neuro-cardiology (Neurocard 2026) and the 14th International Symposium on Noninvasive Electrocardiology. The meeting will be held in Belgrade on October 9th–10th, 2025 and organized by the Serbian Neurocardiological Society, Serbian Autonomic Society and Institute for Cardiovascular Diseases “Dedinje”, under the auspices of the International Society for Holter and Noninvasive Electrocardiology (ISHNE) and the European Academy of Sciences and Arts.

The previous NEUROCARD meetings and Joint Meeting on Noninvasive Electrocardiology included participation of scientists from all over the world, Europe and the region, and were organized under the auspices of several international organizations. In order to improve scientific collaboration between experts from similar disciplines, we decided to organize a joint meeting of Neurocard 2026 and the Symposium on Noninvasive Electrocardiology, with the hope that this formula will be successful.

We hope that NEUROCARD will become a good platform for international scientific cooperation, as well as a good opportunity to develop friendships in a pleasant environment and atmosphere. The progression of heart disease is associated with changes in the neurohumoral mechanisms that control cardiac function.

Neurocardiology deals with the degree to which this neurohumoral remodeling occurs, even before overt signs of cardiac disease become manifest. With our cumulative understanding of these interdependent processes, new avenues for time-appropriate, targeted methods of treating heart diseases can be developed. The Symposium will bring together medical researchers and specialists focused on autonomic cardiovascular regulation in different fields such as cardiology, neurology, physiology, molecular biology, genetics, pharmacology, nephrology, endocrinology, psychology, engineering, nanomedicine and other disciplines.

The purpose of the meeting is to promote research in neurocardiology and related fields, especially noninvasive electrocardiology, to improve prognosis and outcomes of cardiovascular diseases and to facilitate dissemination of state-of-the-art knowledge. Outstanding experts, members of the Scientific Advisory Board, will ensure scientific excellence.

On behalf of the Organizing Committee,

Acad. prof. dr Milovan M. Bojić

Prof. dr Branislav Milovanović

**Branislav Milovanović**  
Professor of Internal Medicine  
and Cardiology  
Chairman of the meeting  
President of Serbian Neurocardiological Society

### INTERNATIONAL SCIENTIFIC ADVISORY BOARD

Niraj Varma, USA	Cristian Podoleanu, Romania	Ivan Cakulev, USA	Leonid Makarov, Russia
Teodor Buchner, Poland	Jan Galuska, Czech Republic	Thomas Klingenheben, Germany	David Murphy, UK
Iwona Cygankiewicz, Poland	Falco Skrabal, Austria	Jorge I. Celis, Colombia	Tatiana Morinova, Russia
Sergio Dubner, Argentina	Harald Strauss, USA	Silva Butkovic Soldo, Croatia	Julian F Paton, UK
Dmitry Duplyakov, Russia	Elnur Smajic, BiH	Goran Krstačić, Croatia	Aleksandar Pevzner, Russia
Ludovit Gaspar, Slovakia	Zumreta Kusljagic, BiH	Larisa Balykova, Russia	Ryszard Piotrowicz, Poland
Viktor Dan Moga, Romania	Vladimir Morinov, Russia	Suave Lobodzinski, USA	Pyotr Platonov, Sweden
Elena Kuchinskaya, Russia	Ram B Singh, India	Bassim Mohammad, Iraq	Katarina Grujic, Norway
Emanuela Locati, Italy	Reuven Zimlichman, Izrael	Wojciech Zareba, USA	Gary Tse, Hong Kong
	Krassimira Hristova, Bulgaria	Jerzy K. Wranicz, Poland	Timon Zupanc, Slovenia

### LOCAL ORGANIZING COMMITTEE MEMBERS OF THE BOARD

Milovan Bojić	Miljko Ristić	Miodrag Ostojić	Anita Milovanović
Petar Otašević	Nebojsa Tasić	Marina Rastović	Biljana Penčić
Aleksandra Nikolić	Milosav Tomović	Ružica Jurčević	Sanja Pavlović
Velibor Ristić	Dejan Kojić	Vlado Đajić	Gordana Peković Peruničić
Vladimir Jakovljević	Zorica Rašić Milutinović	Dragan Đurić	Milomir Milanović
Nina Japundžić-Zigon	Vesna Bisenić	Goran Lončar	Srdan Bošković
Ivana Petrović	Mihajlo Farkić	Dragana Košević	

### TOPICS

Basic Neurocardiology	Oncocardiology	Transcranial magnet stimulation
Electrocardiology and Telemedicine	Autoimmune diseases: neuro-cardiological manifestations	Sleep apnea
Syncope, Orthostatic intolerance	Central mechanisms and heart	Nutrition, physical activity and brain-heart connection
Genetic aspects in Neurocardiology	Blood pressure and neural mechanisms	Placebo effect
Myocardial dysfunction: cardiac-neural interactions	Cardiac autonomic dysfunction and neurological diseases	Biosignal processing
Cardiac sudden death: risk stratification	Psychology and autonomic nervous system	Artificial intelligence
Cardiac arrhythmias and autonomic nervous system	Personalized medicine	Chronic fatigue syndrome
Methabolic autonomic neuropathies	Nano technology	Postinfection syndromes
Long Covid	Lyme disease
